

## Service Definition

Enterprise Architects (EAL) Business Analysis service is a flexible capability working with the client to understand your core business vision and objectives identifying a solution most likely to achieve them. All our business analysts are ISEB qualified. We have analysts who have expertise in all of our key industry sectors so that they are able to hit the ground running and ensure that no rock is left unturned when it comes to meeting the customer brief.

## How we deliver this service

Many projects have tight constraints in terms of time, cost or both - by understanding your key requirements and primary goals we can help prioritise development and suggest an appropriate phased approach to development if necessary. EAL offer various business analysis services:

- Business and Systems Analysis
- Process and Systems Modelling
- Requirements Engineering
- Process Improvement
- Business Architecture
- Business Relationship Management
- Change Facilitation

## Benefits

- Efficient, trusted and lean approach used by over 100 global companies
- **A unique selling point** is our ability to establish self funded benefit led opportunities and solutions through **sophisticated architecture development techniques**
- ISEB qualified business analysts, flexible and on demand
- Experts at enterprise, domain and solution architecture
