

Enterprise Architecture Capability Assessment

ENTERPRISE ARCHITECTS

Service Definition

Enterprise Architects (EAL) Enterprise Architecture Capability Maturity Model (EACMM) Assessment service helps clients evaluate the maturity of their Enterprise Architecture capability. The EACMM is an independent evaluation designed to improve the overall Architecture Capability. The assessment is developed over 3 phases: The Enterprise Architecture Maturity Model, Enterprise Architecture Characteristics at Different Maturity Levels and Performance Criteria and Enterprise Architecture Capability Maturity Model Assessment Scorecard.

How we deliver this service

Our EACMM product will evaluate the current situation and detail recommendations across the following architecture areas:

1. Architecture Process
2. Architecture Development and Tooling
3. Business Linkage
4. Senior Management Involvement
5. Other Entity Participation
6. Architecture Communication
7. Information Security
8. Governance
9. IT Investment and Acquisition Strategy
